Edition 04.05.2022

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: rubber straps, polystyrene foam VW 40, Diolen

Back upholstery structure: rubber straps, polystyrene foam, Diolen

UPHOLSTERY

With casual upholsteries you rather sit „in the sofa“ than on it, the upholstery snuggles. Two upholstery versions are available:

Very casual: A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching.

Casual / loose: A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The intended ridge of the covers on seat, back and armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

NECK CUSHION

Neck cushion with fixed counter weight (without magnet) for additional sit- and lying comfort.

FUNCTIONS

I HEAD PIECE ADJUSTMENT

The head piece is manually adjustable by a ratchet mechanism that allows different positions.

II BACK ADJUSTMENT

Independently of the head piece the back is adjustable by a ratchet mechanism that allows different positions.

alternative adjustment via gas pressure spring

It's possible to adjust the back via gas pressure spring (against extra charge see price sheet) instead of the ratchet mechanism. The operation is carried out by a push button integrated sideways at the seat.

By adjustment via gas pressure spring the dimensions partly differ compared to the ratchet mechanism (detailed description see price sheet).

optional, motor-driven foot rest FXM

A motor-driven foot rest can be installed as additional relax function (extra charge see price sheet).

The operation is carried out by TOUCH IT sensors that are fixed at the respective armrest side.

With extended foot rest the total and the seat depth are enlarged up to 38 cm.

When ordering the respective foot rest (67 x 34 cm respectively 52 x 34) is automatically assigned and delivered suitable for the sofa respectively add-on element.

The foot rest can be installed with the following elements:

- sofas with 2 AR
- add-on elements with 1 AR (only at the respective armrest side)

Please note: With seats without armrest and with daybeds the foot rest can't be installed due to the construction.

When ordering please indicate below which element and as the case may be below which seat (standing in front on the left, right or both-sided) the foot rest is desired.

A later fitting is unfortunately not possible.

Please also note our general details and sales information

Edition 04.05.2022

Errors and amendments excepted. Our General Terms and Conditions are effective.

LEGS

Angle leg no. 1 (= sh 46 cm) optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated mat black

from the left to the right:

Sword runner no. 2 (= sh 46 cm) optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated mat black

from the left to the right:

Aluminium casting sword runner no. 3 (= sh 43 cm) optionally available in:

- polished
- bronzed
- black mat

from the left to the right:

FRAME

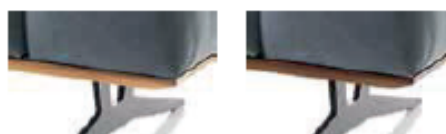

It can be chosen between a covered frame and a solid wooden frame.

The covered frame will be delivered on the lines of the chosen covering material.

The solid wooden frame is optionally available against extra charge (see price sheet) in:

- wild oak (UV laminated with oil effect)
- walnut (UV laminated with oil effect)

from the left to the right:

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric 13-BISON a **contrast thread colour** must be explicitly chosen.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

Errors and amendments excepted. Our General Terms and Conditions are effective.

WITH FUNCTIONAL BACK Elements with dual adjustable back. By folding the back the total height is reduced up to 21 cm (with gas pressure 11 cm), the total depth is enlarged up to 30 cm (with gas pressure 20 cm) and the seat depth up to 8 cm (with gas pressure 6 cm).

With leg version for seat height 46 cm the total height is also enlarged up to 3 cm.
