Edition 09.02.2022

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure:

Very casual with bay quilting: rubber straps, polystyrene foam VW 35, 80% foam sticks VW 40, 20% silic. hollow fiber, Diolen
Casual / loose: rubber straps, polystyrene foam VW 35, Diolen

Back upholstery structure with bay quilting: polystyrene foam, 50% foam sticks, 50% duck plumes, Diolen

UPHOLSTERY

With casual upholsteries you rather sit „in the sofa“ than on it, the upholstery snuggles. Two upholstery versions are available:

Very casual: A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching.

Bay quilting:

This high quality upholstery with bay quilting contains a flexible mixture out of loose filling material as foam sticks and/or plumes that enables a point adaptation to the body. For this the fillings are worked in separate bays that according to the cover come more or less apparent. Sitzmarks are due to model and design typical.

casual / loose: A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The intended ridge of the covers on seat, back and armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

I FUNCTIONAL ARMREST

The armrests are adjustable by a ratchet mechanism that allows different positions. By pulling beyond the highest position the armrest can be returned into the basic position (armrest lies on the corpus again).

Please note: Armrests with ratchet mechanism must not be used as seat in the folded up state. The joints are not designed for use with the entire weight of the body.

II HEAD PIECE ADJUSTMENT

The head piece is manually adjustable by a bearing that allows different positions.

III BACK ADJUSTMENT

The back is adjustable independently of the head piece by a ratchet mechanism that allows different positions.

optional, motor-driven foot rest FXM

As additional relax function a motor-driven adjustable foot rest can be fitted (extra charge see price sheet). The handling is effected by TOUCH-IT sensors which are affixed at the respective armrest.

With extended foot rest the total and the seat depth are enlarged up to 38 cm.

When ordering the respective foot rest (67 x 34 cm respectively 52 x 34) is automatically assigned and delivered suitable for the sofa respectively add-on element.

The foot rest can be installed with the following elements:

- **single sofas with 2 AR**
- **add-on elements with 1 AR**
(only at the respective armrest side)

Please note: With seats without armrest and with daybeds the foot rest can't be installed due to the construction.

When ordering please indicate below which element and as the case may be below which seat (standing in front left or right side or both-sided) the foot rest is desired.

A later fitting is unfortunately not possible.

Please also note our general details and sales information

Edition 09.02.2022

Errors and amendments excepted. Our General Terms and Conditions are effective.

LEGS

Sword runner optionally available in:

- nickel satined (stainless steel optics)
- powder-coated mat black

from the left to the right:

NECK CUSHION

Counter weight

without magnet, cushion fixation via an affixed counter weight.

SEAM

The model is worked with an open selvage seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **combination**
- **covering matting**
- upholstery **very casual or casual / loose**
- **finish of sword runner**
- **optional foot rest**, also **element and if necessary below which seat** (standing in front left or right side or both-sided)
