DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame (seat), metal frame (back)

Seat upholstery structure: zig-zag springs, Dacron, barrel spring, Diolen

Back and armrest upholstery structure: rubber straps, polystyrene foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavel-ess. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are ac-cording to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

The back and the armrests are worked with selvedge seam. With leather the front edge of the seat is worked with a lap seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

FUNCTIONS

FUNCTIONAL BACK

The back can be raised with each element. Therewith the seat depth is enlarged up to 14 cm. The sofa becomes a high back.

FUNCTIONAL ARMREST

The armrests are adjustable by a ratchet mechanism that allows different positions. By pulling beyond the highest position the armrest can be returned into the basic position.

Please note: Armrests with ratchet mechanism must not be used as seat. The joints are not designed for use with the entire weight of the body.

Please note: With **armchair small V1** there's **no back function** and also **no functional armrests** (fixed back and fixed armrests).

Difference in dimension: For visual reasons with the armchair V the armrests are respectively 4 cm smaller than with the other elements.

CUSHION RECOMMENDATION

For an optimum seat comfort with **add-on corner 11/2** we recommend an additional back cushion Y (84 x 48 cm).

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

- **sh 44 cm** (20 cm high) or
- **sh 40 cm** (16 cm high)

Available in the following finishes:

- nickel satined (stainless steel optics)
- powder-coated structural black mat (lacquered)

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric 13-BISON a **contrast thread colour** must be explicitly chosen.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Excepti-on 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).
